Marc Khayat, CCIE #41288

Knowledge is Power. Certification is Proof.

All Academy Students Should Seek Cisco Certification

- Students who have just completed the CCENT, CCNA Routing and Switching, CCNA Security, and CCNP curricula have a fresh view of newly evolving technology
- Enjoy a diverse certification program with opportunities to grow in the future
- Cisco has been the leader in IT networking from the beginning - capitalize on that strength
- Enter a very active and growing job market
- Hiring managers want certification
- Certification can lead to as much as a 9% salary boost

Cisco Networking Academy Portfolio

The Skills-to-Jobs Learning Experience

What Students Learn

- Networking
- Security and Cybersecurity
- IoT
- Programming
- Linux and General IT

How Students Learn

- Learning by doing
- Problem-solving
- Project-based learning
- Initiative and leadership
- Real-world experiences

How Students Think

- Customer-centric mindset
- Critical thinking
- Personal and social responsibility
- Business context

Packet Tracer

Curriculum Overview

Packet Tracer is an innovative simulation and visualization tool used for lectures, labs, games, homework, assessments, and competitions. It is embedded in these courses:

- CCNA Routing and Switching
- CCNA Security
- IT Essentials
- Intro to the Internet of Things
- Mobility Fundamentals

Career Prep

The Packet Tracer simulation-based learning environment promotes the development of essential career skills ranging from teamwork and critical thinking to creative problem solving.

Learning Components

- Cisco Packet Tracer (PT)
- PT Mobile Android
- PT Mobile iOS
- PT Games

Features

As an integral part of the Networking Academy learning experience, Packet Tracer provides

- Simulation
- Visualization
- Authoring
- Assessment
- Collaboration capabilities and facilitates the teaching and learning of complex technology concepts.
